The RICS Australasia Commercial Management of Construction Conference is the leading conference in the region for commercial, contract and cost management, procurement and dispute resolution professionals. In 2025 over 500 commercial, cost and contract management professionals registered for our event.

Our 2026 conference will once again be a hybrid event – face to face in Sydney and with an opportunity for online panellists and live viewing for those unable to attend in person. The conference is being held on Thursday 30 April 2026 at the Shangri-La Hotel. A diverse range of speakers, panellists and attendees (client side, contractor and consultant) will participate from across Australia and New Zealand.

Participants will share their expertise and experiences as they participate in discussions that dive into the key issues that are impacting and being managed across the ANZ region by commercial teams striving to deliver successful construction project outcomes. The event is also the year's best networking opportunity for commercial, contract and dispute professionals.

The conference will include a range of topics and speakers that will help those establishing and managing construction contracts to minimise their risk and maximise their commercial outcomes.

Registration, light breakfast & networking

Chair's welcome

Speaker(s): Steven Evans FRICS, Concordia Resolution

RICS President's address

Speaker(s): Nick Maclean OBE, RD, FRICS

Headline address

Speaker(s): Headline Partner – David Fogg MRICS, Director, iCost

Conference Breakfast Partner introduction

Panel session 1: Procurement strategy on major projects - When process, probity and capability drive outcomes

Early procurement and delivery strategy decisions materially influence project performance, claims behaviour and dispute outcomes — often long before contract administration issues arise. The panel session will aim to help commercial managers better influence early-stage decision-making and improve project outcomes.

Top 5 tips! Conflict avoidance – Project kick off meetings

Panel session 2: Sydney Airport and the journey to adopt NEC4

Sydney Airport are the latest major client-side organisation to adopt NEC4 for their major program of work. In this session we'll hear from Sydney Airport about their drivers and the plans going forward in
