

Mediation training programme

A facilitative and evaluative approach to mediation
in the built environment

Highly practical and intensive, the RICS Mediation training programme will prepare you to mediate the most complex disputes to the highest standards across land, property, construction and infrastructure.

This course embraces the facilitative and evaluative approaches to mediation. Our expert trainers will provide you with in-depth, practical coaching and you will receive feedback from both your trainer and your peers.

This course combines the ACRE™ and Evaluative mediation training to provide you with one comprehensive programme.

Who should attend?

Our delegates come from a variety of backgrounds and include professionals in land, construction, real estate, local authorities as well as legal practitioners and members of government departments.

This course is also suitable for those who are representing parties in mediation.

The RICS Mediation training programme adopts the ACRE approach

What is ACRE?

Analytical

Helping parties to analyse the circumstances, law, evidence, as well as the strengths and weaknesses of their case to empower them to make pragmatic and viable settlement decisions.

Commercial

The training encompasses wide commercial as well as narrow legal realities to result in a flexible settlement, which courts or arbitration cannot.

Restorative

Focusing on restoring the business relationship between parties, proceedings are completely confidential to limit any further damage.

Expert

Mediators use their expertise to help parties to reach a commonsense settlement, or to narrow the issues in dispute, reducing court or arbitration costs.
