

Recognition of Professional Qualifications (RPQ)

August 2026

RICS recognises the qualifications listed below for exemptions from RICS' assessment, subject to the stated conditions.

All applicants must:

- For Chartered routes, have one Proposer who is MRICS or FRICS.
- For Associate routes, have one Proposer who is AssocRICS (with a minimum of 4 years' experience post-Assoc), MRICS or FRICS.
- Successfully complete the RICS Professionalism (ethics) module.
- Provide a CV/resume setting out their relevant experience* and may be asked to provide their CPD record.
- Provide a letter from the professional body/qualification provider (where applicable) confirming their membership/qualification is up to date and there are no regulatory matters ongoing, or sanctions awarded against the applicant. This should include confirmation of how the applicant gained the qualification.

RICS reserves the right to decline an application. In such cases, applicants will be required to undertake the most appropriate RICS assessment.

Applicants are asked to confirm how they gained the recognised qualification. If this was by way of a third-party agreement which is not RICS-recognised, the applicant will be referred to the most appropriate RICS assessment.

Only the named qualifications on this list have been evaluated for recognition purposes. We are not able to consider qualifications on an individual case-by-case basis.

*** Some routes include a condition that requires applicants to have a period of relevant experience. Where this is stated, RICS defines this as full-time and relevant to the RICS competencies as set out in the relevant RICS pathway guide.**

*** In addition to the Chartered Surveyor designation, some chartered routes include access to an additional title. This is stated where applicable.**

Find Your Country and Check Your Eligibility

To make the process easier, we've organised the recognised qualifications by country. Simply select your country below to navigate directly to the relevant section and view the qualifications and membership pathways available to you.

If you do not meet the criteria for one route, you may still be eligible through an alternative pathway.

Australia

Canada

China

Germany

Ghana

Hong Kong

Jamaica

Japan

Kenya

Malaysia
