

Valuer registration

Mandatory countries

RICS is committed to making valuer registration mandatory around the world to meet the needs of a globalised marketplace. We consider local market conditions when deciding to expand valuer registration, and work alongside local partners to ensure both professionals and clients benefit from RICS regulation.

Valuer registration is currently mandatory for RICS professionals in the following markets. Each country has a corresponding date when registration became mandatory.

This document was last updated: 1 September 2026
