Andrew	McCracken	13/05/2022	RICS	1141722	Warrington	North West	Pass
Philip	Austin	06/10/2021	RICS	0087569	Wilmslow	North West	Pass

To access the full profile of the EWS Assessment Training Programme successful completers, please click on their member numbers.

Successful course completers should be capable of completing Option A or Option B of the EWS1 form below 18m but should self-assess their own competence and if the building is very complex or high risk, should consult an IEng or CEng fire engineer for advice on Option B if in any doubt.

For high-risk residential buildings above 18m, it is still expected that this will be carried out by an Incorporated Engineer (IEng) or a Chartered Engineer (CEng) registered with the Engineering Council by the IFE (or other professional body if demonstrable fire engineering competence), although a survey report of the wall by course completers may be instructed for a fire engineer to make the overall assessment.

The Government announcement of an underwritten PII scheme for course completers may impose restrictions on the work to be carried out which is eligible for this PII cover. Further details will be announced as soon as possible.
