

RICS International Women's Day 2022

#BreakTheBias

Tuesday 8th March 2022

Free to attend - limited to 100 places.

Venue: Royal Institution of Chartered Surveyors, 12 Great George St, London SW1P 3AD

The RICS is joining the International Women's Day movement to #BreakTheBias on 8 March 2022, and we welcome you to get involved!

This year's theme invites us all to #BreakTheBias by calling out gender bias, discrimination and stereotyping wherever we see it. Reinforcing RICS's commitment to diversity, equity and inclusion at work, we're welcoming all in the surveying profession to come together for an event of celebration, reflection and paving a more inclusive and equitable future.

Hosted in RICS's historic Great George Street, London, office and streamed across the globe, join us for an event exploring women's experiences in the profession. From entering the workforce, to navigating motherhood and other professional challenges, this will be an opportunity to hear from an inspirational line-up of panellists, share your experiences and make meaningful connections.
